

ABVM Science Project Schedule

School Day Science Fair: 2/6/20

Assignment	Hand In	Due Date	Points	Done ✓
Ask a Question	Index card with question: How does _____ affect _____?	September 20, 2019	5	
Work Cited Organizer	Work Cited Organizer: find 3-4 sources -print and read articles -highlight info that answers question	September 27, 2019	15	
Construct a Hypothesis & Complete Proposal Form	-Turn in hypothesis in correct format -Complete form with variable info	September 27, 2019 6th grade: Plant seeds	10	
Outline of Research Paper and Work Cited Page	Turn in outline of research paper with topic sentences and supporting sources included.	October 4, 2019	10	
Research	Summary of info that answers your question with in-text citations -minimum 1page -Why is this subject important for you to research? -Works Cited page	October 18, 2019	30	
Experiment Design – Materials and List of Variables Procedures	-Write a list of materials (including measurements, if needed) -Identify variables - Write experimental procedure steps	October 25, 2019	20	
Document Experiment	Log observations (handwritten) 6-8 photos digitally labeled (Pic Collage...)	November 8, 2019	15	
Observation Table / Graph with explanation	-Computer generated table or graph showing data (created on Pages) <i>with</i> -½ page explanation of data	November 15, 2019	20	
Analyze Data and Conclusion “We thought that...In reality what happened... We can show this by...”	-½ page data analysis: Is your hypothesis true or false? - include explanation for how or why hypothesis was or was not supported -Next steps in future for extension of experiment	November 22, 2019	20	
Final Paper	-Compile all documents with corrections -add cover sheet, table of contents, and appendix -Add photos and observation log in appendix	December 13, 2019	25	
iMovie (7th & 8th only)	iMovie of experiment (graphics, sound, live footage...)	January 17 , 2020	15	

Display Board: communicate your findings!	-Set up display boards for Science Fair and Open House	January 22 , 2020	25	
--	---	-------------------	----	--

Any component of the paper turned in late will result in loss of points according to the Junior High Homework policy.

*If your experiment involves growing plants or molds, you will need to start your experiment by the last week of September.

All experiments need to be completed by November 7th.
